PROJECT

NPCI

Oct 2025

- Conducted in-depth analysis of NPCI's non-profit financial structure, digital payment infrastructure, and risk management systems.
- Evaluated financial inclusion impact, transaction security frameworks, and scalability of India's digital payment ecosystem.
- Developed strategic recommendations to strengthen operational efficiency and global competitiveness.

OTT vs Cinema

Nov 2025

- Analyzed global revenue trends and India's OTT market (601 million users, 148 million paid subscribers).
- Forecasted growth of India's entertainment industry from ₹245000 crore to ₹345000 crore by 2028 using trend analysis.
- Assessed business models, profitability drivers, and long-term industry sustainability.

INTERNSHIP

PREDICTRAM

Jan 2026 – Present

RESEARCH ASSOCIATE

- Conducted quantitative financial research and risk analysis using Python, Excel, and Power BI within the Q-RIAAS framework.
- Prepared 10+ equity and market research reports in one month, applying financial modeling, forecasting, and statistical analysis.
- Achieved 79% predictive accuracy by analyzing macroeconomic indicators, price trends, and risk metrics.
- Supported investment decision-making through data-driven insights, valuation analysis, and scenario-based risk assessment.
